ALL JOB WORK PROMPTLY ATTENDED TO.

THE DOUBLE HOLLOW PRESS PLATE CO. LOWELL, - - - MASS.

We solicit the attention of manufacturers of *Textile Fabrics* to our latest improvements of Plates and Presses. We are now able to furnish Plates *positively Steam and Water tight*. These Plates are *welded* and thoroughly riveted, and warranted perfectly free from leaks. We have improved on the old method of metallic tubing, by using no stuffing boxes, and are positively free from leaks, as on the common stuffing boxes so commonly used, and have a most excellent method of *Rubber Connections* with Steam and Water Tight Couplings, and we believe this to be the best method of connections for Plates. It requires no work under the floor where the Press sits; by this means it brings all connections on the same floor with the Press, therefore making it much less complicated and easier to be taken care of, and less expense to keep it in repair, requiring *no machinist* to take care of them.

The Rubber Connections have now been in use over four years and give the best satisfaction. Parties now using both kinds (Rubber and Metallic tubing) give Rubber the preference.

The Plates are suspended from a single stand with adjustable bearings, without a possibility of the Plates catching or slipping. They are lifted apart for laying in *Packs* by worm or gear movement, and can be lifted a greater or less distance as the packs may require. They are lifted easier than by any other method and no possibility of falling back. The methods for making the Steam and Water Connections are positively tight, the Steam Connections and *fingers* for suspending the Plates are so arranged that it gives all the surface of the Plate for the goods, thereby leaving no obstructions in placing them.

We have purchased of Messrs. WESTON & DENNIS their Patents on Plates and Connections; also their *Double Screw Anti-friction Presses*, which are so highly favored in the market. We are the only manufacturers of the celebrated Presses with Hollow Plates and *Indicator* and *Stop Motion*, which avoid all danger of accidents. We warrant these Presses from 100 to 400 tons' pressure.

These Presses are adapted to all purposes the Hydraulics are, and without many of the objections they are subject to.

We provide the Counters on the Presses, therefore requiring only a Pulley on the main line to be furnished by the mills. All work warranted.

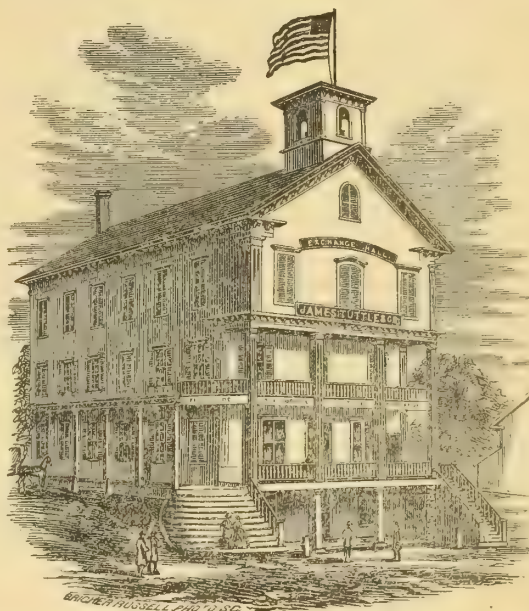

Can furnish the best PRESS PAPERS at the lowest prices

Address **W. H. WHITMARSH, Lowell, Mass. Box 236.**

U. S. POSTAL REGULATIONS.

LETTERS, and matters partly or wholly in writing, or SEALED PACKAGES to any part of the UNITED STATES, 3 cents per half ounce, or fraction thereof. DROP LETTERS, at Post-offices having letter-carriers, 2 cents per half ounce; at other offices, 1 cent per half ounce. Request letters are returned to writers free. Stamps cut from Stamped Envelopes are valueless. The weight of a letter packet must not exceed *four pounds*

POSTAL CARDS, 1 cent each. With an additional 1 cent stamp, they can be sent to Canada, Newfoundland, and by direct mails to Germany.

ON NEWSPAPERS AND PERIODICALS sent within the UNITED STATES, the following are the *quarterly rates*, which must be paid at either the mailing or distributing office: QUARTERLY, for each 4 oz. (not over 8 oz.), 1 cent. MONTHLY, for each 4 oz. (not over 12 oz.), 3 cents. SEMI-MONTHLY, for each 4 oz. (not over 12 oz.), 6 cents. WEEKLY, for each 4 oz. (not over 16 oz.), 5 cents. SEMI-WEEKLY, for each 4 oz. (not over 16 oz.), 10 cents. TRI WEEKLY, for each 4 oz. (not over 16 oz.), 15 cents. SIX TIMES A WEEK, for each 4 oz. (not over 16 oz.), 30 cents. DAILY, for each 4 oz. (not over 16 oz.), 35 cents. On Newspapers of small size, issued less frequently than once a week, the postage is 1 cent for packages of four oz. each. Newspaper packages over prescribed weight are SUBJECT TO LETTER POSTAGE. On Newspapers or Periodicals to be delivered by carrier in the same Postal District where deposited, the postage is 1 cent *each*, if not over 2 ounces; if over, 2 cents *each*.

UNSEALED CIRCULARS, not exceeding four pounds, 1 cent for each two oz.

BOOKS, not exceeding four pounds, 2 cents for each two ounces. Books with flexible covers are regarded as pamphlets.

PACKAGES OR SAMPLES of merchandise, metals, ores, minerals, etc., not exceeding 12 ounces, 2 cents for each two ounces. Packages must be so inclosed as to be easily opened and contents examined, without injury to wrappers.

MISCELLANEOUS PRINTED MATTER, excepting books or newspapers, not exceeding four pounds in weight, 1 cent for each 2 ounces. This class includes book-manuscripts, proof-sheets, bulbs, seeds, scions, cards, chromos, circulars, engravings, maps, pamphlets, sheet-music, etc.

THE REGISTRATION FEE on letters or sealed packages to any part of the United States, is 8 cents, in addition to postage paid in full. Registry fee to Canada is 5 cents; to England and Germany, 8 cents.

Letters addressed to the departments in Washington must be prepaid.

FOREIGN POSTAGE. — Letters per half ounce, to Great Britain, Ireland and Canada, 6 cents.

German Empire (direct mail), 6 cents.

France, 10 cents. Italy, 10 cents.

Switzerland (via England), 10 cents; (via Germany), 8 cents.

Denmark, 7 cents. Belgium, 6 cents.

Spain (via New Orleans), 10 cents; (via England), 12 cents.

Austria (direct mail), 6 cents; (via England), 7 cents.

Russia (German mail direct), 10 cents; (closed mail, via England), 11 cents.

Mexico, 10 cents. Jamaica, 10 cents.

Brazil, 15 cents. Japan, 10 cents.

Cuba, 10 cents. China, 10 cents.

Venezuela, 10 cents. Sandwich Isles, 6 cents.

East Indies (via San Francisco), 10 cents.

Australia (British mail, via Southampton and Suez), 16 cents.

Borneo, 28 cents. Equador, 20 cents. Peru, 22 cents.

Chili, 22 cents. Morocco, 16 cents. Liberia, 16 cents.

Gold Coast, 16 cents. Greenland, 7 cents. Iceland, 10 cents.

Egypt (via Trieste), 16 cents; (via England and Trieste), 17 cents.

DOMESTIC MONEY ORDERS are issued at Money Order Offices at the following rates: For \$10 or less, 5 cents; \$10 to \$20, 10 cents; \$20 to \$30, 15 cents; \$30 to \$40, 20 cents; \$40 to \$50, 25 cents. No orders for more than \$50 are issued, nor more than three in one day to the same payee.

EDWIN W. GAY.

THE New-England Trust Co.

85 Devonshire and 16 Water Street,

BOSTON.

**CHARTERED CAPITAL, - \$500,000,
PAID IN,
With liberty of increase to \$1,000,000.**

**Four per Cent Interest allowed on Deposits on Daily Balance of
\$300 and upwards, subject to check at sight. No interest on
Daily Balances less than \$300. 12 Five per Cent on
Special Deposits for a period of not less
than six months.**

This Company is authorized to receive and hold moneys and property in TRUST and on deposit from courts of law or equity, including courts of probate and insolvency, executors, administrators, assignees, guardians, trustees, corporations and individuals, upon such terms and conditions as may be agreed upon.

DEPOSITS may be made at any time, and INTEREST will be allowed on daily balances of Three Hundred Dollars and upwards.

It will also act as TRANSFER AGENT for RAILROAD and OTHER STOCK CORPORATIONS, and as agent for the purpose of issuing, registering, or counter-signing the certificates of stock, bonds, or other evidences of debt, and for the payment of dividends and interest of any corporation, association, municipality, State or public authority, and also as agent or attorney for the care and management of invested property, and for the collection of dividends and interest.

It is by law made a legal depository of money paid into court by the parties to any legal proceedings, or which may be brought into court by reason of any order or judgment in equity or otherwise.

It will act as TRUSTEE OF MARRIED WOMEN, and take charge of and manage their separate property.

It offers to the public the advantages of a guarantee capital of half a million dollars, specially invested by requirement of its charter, and a perpetual succession.

WICKASAUKE WORKS,

[ESTABLISHED 1867.]

NORTH CHELMSFORD, MASS.

SWAIN'S

Twenty-four Inch

TURBINE WHEELS

And all Sizes under that Diameter,

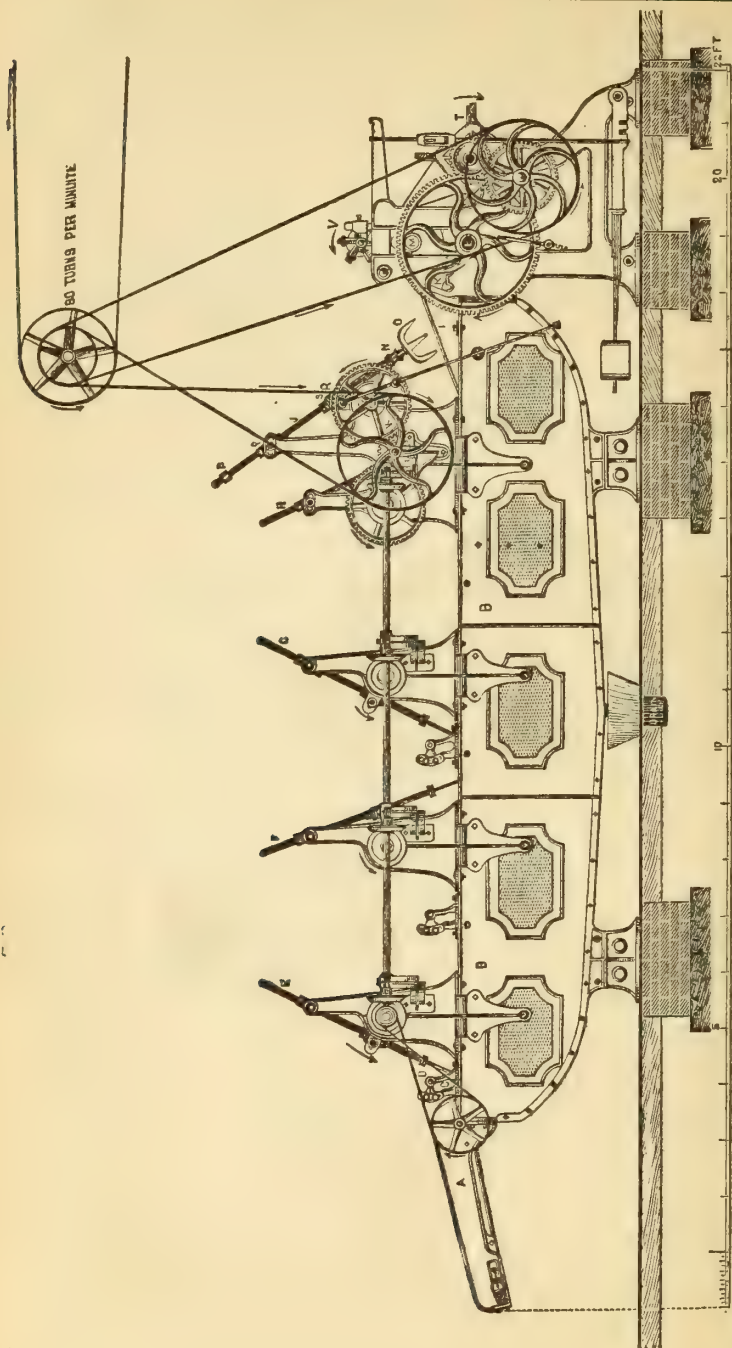

A Specialty, Manufactured at these Works Only.

***Governors, Gearing, Shafting, Hangers, Pulleys,
Light Circular Saw Frames, Dynamometers, Scroll Saws,***

All kinds of

Machinists' Jobbing, Pattern Making, Etc.

A. M. SWAIN, PROPRIETOR.

SARGENT'S MACHINE WORKS:--CHAS. G. SARGENT & SON, PROP'R'S,--WORKS AT GRANITE-VILLE, MASS.—Manufacture to order Wool Washing-Machine, single, or in sets of Three or Four Rows. These Machines are warranted to cleanse all kinds of Wool. A Set of three Washing-Machine, two Washers and one Rinsor—will clean Six Thousand Pounds per day, perfectly. Improved Hot and Cold Air Wool Dryer. Improved Burring Machines and Burr Pickers, superior to any other machines. Burring Machines for Wool Cards, with Worker and Stripper combined on same. Metallic Feed Rolls for Cards. Lickers-in for 2d Brakes and Finisher Cards, a superior article. Metallic Waste Cards for Yarn and other soft wastes. **ATOMIZER** for oiling wool on Breaker Cards,—this is a new invention, and is giving entire satisfaction. It puts the oil or composition on to the wool on the feed-apron in the form of a mist or spray, making a large saving over oiling in the pile on the door. [SEND FOR CIRCULAR.]

GENERAL AGENTS FOR THE SALE OF

Machinery & Mechanical Supplies,

AYER JUNCTION, MASS.

GEORGE C. STEVENS.

J. FRED'K STEVENS.

THE GREATEST ECONOMY IN WATER POWER.

STEVENS' PATENT

TURBINE WATER WHEEL.

Patented May 18, 1869; Reissued July 16, 1872; Patented Aug. 13, 1872.

CANNOT BE EQUALLED FOR

Economy in Water,

Perfection in Workmanship,

Durability and Power.

The only Turbine adapted to variable streams. By the independent and simultaneous opening of the gates in sets, it adjusts the supply of water to the exact amount of work. The gates give a full opening under all circumstances, and are balanced by the action of the water itself; thus ensuring quick, positive, and easily-controlled gates under a high as well as a low head of water.

The guides are cast-steel, placed stationary between the wheel and gates at the true angle of hydraulic force, and are not varied by the movement of the gates, giving the water the most perfect direction on the buckets.

G. C. & J. F. STEVENS, Patentees.

AYER, MASS.

TO BOOT & SHOE MANUFACTURERS.

We wish to call your attention to our method of

DRAFTING SOLE PATTERNS.

One of the greatest difficulties encountered by the manufacturer is the imperfect manner in which Lasts and Dies run together. This could not be otherwise, owing to the fact that patterns have been graded by hand and on a principle differing from the last.

The machine we have in use will graduate Patterns on a perfect principle of proportion, both in length and width, and we can warrant every set graded by it. DIES MADE FROM THESE STANDARDS WILL EXACTLY CORRESPOND TO THE LASTS, thus enabling us to produce with accuracy results which have hitherto been but imperfectly produced.

We have also

Town's Last Machine and Patent Guides,

the best graduating machine in use, and we can assert and are prepared to demonstrate that all lasts made by us are more perfect in every respect than those from any other manufactory.

Owing to the fact that before the last is turned we make zinc patterns of the same sizes as the patterns by which the dies are made, and mould or crimp them to fit the bottom of the last, and then turn the last to fit the patterns, we can by this means ensure perfect fits and are enabled to give manufacturers the same lasts in width and fullness in two or three years thereafter as correctly as at the start.

We are also Agents for the manufacture of

McComber's Patent Lasts,

for Middlesex County, the best fitting Last made in this country. Application for license to use the same should be made to McComber Patent Last Company, 42 Bedford Street, Boston.

For Lasts or Sole Patterns, address

ELLIS & YORK,

MANUFACTURERS AND PROPRIETORS OF

THE ELLIS PATENT GAS BURNER

Regulators and Globe Combined

Is decided to be the BEST GAS LIGHT ever produced — quite as steady as the Argand, which varies as the pressure varies, and needs to be constantly watched (as all know), besides the great annoyance from the heat caused by the style of the shade and chimney. By our Globe the light is deflected, and being so constructed as to allow the heat to pass upwards, after being properly adjusted is always regulated, with an actual saving of more than forty per cent in the consumption of gas.
